GENERAL & REVENUE SECRETARIAT

(1) 52/6;

Serial Nos. 11.

Part B for July 1925.

SUBJECT

Forwards a copy of the Memorandum for the guidance of applicants for grants under section 2 of the Trade Facilities Act, 1924.

Secs. 12. To The Secretary to the Hon'ble the Resident in Mysore Bangalore

No. Pol 11 dated 7th July 1925

States that there is no immediate need for making an application to the Committee.

AH

Serial No.

Letter No.8235/67-1891 dated 18-10-1924.

From The Secretary to the Resident in Mysore

Fds. a copy of the Memorandum for the guidance of applicants for grants under Section 2 of the Trade Facilities Act, 1924.

How money should be found for our Capital Works from the next year is the foremost financial problem calling for early solution. We have no Revenue surpluses and it is undesirable to have recourse to public borrowing as the terms demanded by lenders still continue to be onerous. The Government of India loan of this year was not much of a success. They put down Rs 20 crores in their budget as the amount to be raised but reduced it to Rs 15 crores when they actually entered the market as borrowers and even this amount they did not get as what was subscribed was only Rs 13 crores. The Bombay Corporation attempted a floatation at 6½ per cent some months back and I do not think its efforts also were successful. Very recently the Calcutta Corporation decided upon borrowing a comparatively small sum of about Rupees 40 lakhs at the interest rate of 6½ per cent.

In England the rates are very favourable!

2. I understand that the Seventh Installation of the Electrical Scheme at Sivasamudrum and a new Installation at the Dam of the Krishnarajasagara Reservoir are under the

NOTE—Contn. Sheet

serious

serious consideration of Government. The former project is, I believe, of a highly remunerative character and the finances required for it has to be found by some means or other. Besides the demands for expansion of Electrical Works, there are the capital requirements of the Railways -- lines worked by us as well as those worked by M. & S.M.Ry. Coy. -- and of the Krishnarajasagara Dam Works.

Serial No.

3. With a view to the relief of unemployment in the United Kingdom, various measures are being sanctioned from 1921 the object of which is to obtain more and more orders for the manufacture of materials in that country. In June last we received from the Residency a communication x relating to a scheme under the Trade Facilities Acts, 1921-22 and as this scheme ~~xx~~ provided that His Majesty's Government would only guarantee loans raised in the United Kingdom with the object of their proceeds being utilised for the purchase of manufactures of that country, I thought it did not offer any particular advantage to us and I, therefore, expressed the opinion that we need not give it any consideration. We have now received another communication x dated 18th October 1924 from the Residency forwarding a copy of the Resolution x of the Government of India in which attention is drawn to the Trade Facilities Act of the Home Government as amended

Z.

P.U.

F.

NOTE—Contn. Sheet

in

Serial No.

in May 1924. In this amending Act, that Government, in addition to the guarantee of principal and interest provided for in the previous Acts, "undertake to pay ** ** an amount not exceeding three-quarter of any interest payable in the first five years of the currency of the loan in respect of such portion of the loan as is to be expended in the United Kingdom".

2.

4. I put up the amending Act which is published in the Fort Saint George Gazette dated 11th November 1924. Section 2 of this Act and the Memorandum accompanying it furnish all the information which applicants, desirous of availing themselves of the advantages offered by the arrangement, require. It seems to me that in the offer now made we have the means of finding a large part of the Capital finance we need. I think we can comply with all the conditions laid down in the Act in so far as purchases that can be made in the United Kingdom are concerned and I do not see any risk or disadvantage in contracting a debt under the conditions of the Act. The only uncertain factor is exchange which arises in regard to a sterling liability. Whether the difference between the rates of exchange on the dates on which the different instalments of the loan are taken and the rate on the date on which the loan is repaid will

NOTE—Contn. Sheet

be

be in our favour or against us, it is ~~not~~ now impossible to say. What risk there may be in this factor is, I think, more than covered by the advantages ~~referred to above~~ which the Scheme offers, and it need not, therefore, dissuade us from making the proposed application.

Serial No.

5. I think the scheme offers substantial advantages to us. If our application is entertained, we shall get money which we so badly want and we shall be relieved of the trouble of having to find it otherwise; the debt itself will have been contracted on the cheapest terms as the interest which we shall have to pay will be only one-fourth of that to be paid to the lenders if His Majesty's Government agree to give us a contribution equivalent to ~~the~~ three-fourths of the rate.

6. The concession of a contribution of three-fourths of interest is offered only for a period of five years and the currency of the loan that we ~~shall raise~~ require may also be limited to the same period. The amount that we shall need, (I shall refer to this point presently), will not be large compared with the public floatations in the London money market and the loan itself, as I have already stated, need not be for a period longer than five years, as I think, we can devise ways and means for discharging the debt at the termination of that period. I believe

NOTE—Contn. Sheet

that

5

Serial No.

that the Seventh Installation at Sivasamudrum has an assured prospect of giving us a handsome additional revenue and if such revenue is saved, it may suffice to discharge the major part, if not the whole, of the debt. In view of these considerations, we shall not need a public loan to be floated in London and it will be sufficient if we borrow from a Bank. If Messrs Coutts & Co. can accommodate us, we need not go to other Bankers. As we need funds for paying for purchases made in the United Kingdom for Messrs. Coutts & Co. may go on paying for them and open a separate loan account for us. Of the interest payable on the debts so created, we can pay our share and the balance will be paid by the Home Treasury.

7. What are the particular capital purchases which are likely to be made in the United Kingdom is the next point to be considered. I note below the items of which I am aware and classify them under two heads: the first class of items relates to orders already placed or about to be placed and the second class relates to new items:

CLASS I.-

Sluice Gates to K.R.S. £ 24,000.

The order for these gates has already been placed and payments may have to be made very soon. I do not feel sure if the concession offered by the Act under consideration

NOTE-Contn. Sheet

will be extended to orders already placed. In any case, we may include this item also in our application.

Serial No.

Switch gear and miscellaneous plant for Kankanhalli. £ 20,000

This, I understand, is an order to be placed the execution of which is likely to take six to nine months.

Pumps, etc., for the Mysore Water Works. £ 10,000

I do not know In which country the purchase of these materials is going to be made; if in England this item may also be included in the application.

CLASS II.-

I understand that the approximate cost of the estimates for two Installation at Sivasamudrum and the Kannambady Dam and the connected works is about Rs 75 lakhs and that of this amount about one-third will be required for local works or for purchases to be made in America, the balance of Rs 50 lakhs representing the value of materials to be purchased in the United Kingdom. £ 330,000

£ 384,000

It may be necessary to order for some materials for Railways from the United Kingdom, whether for lines worked by us or for those worked by the M. & S.M. Ry. Coy. In the aggregate, therefore, the demand may be placed at £ 400,000.

8. In the circumstances explained above, we may, I think, make a provisional application under the Act. In all probability, the Committee to which the application has to be submitted under Clause IX of the Memorandum will ask for more information and further correspondence will indicate to us how we may decide this

NOTE—Contn. Sheet

matter

1508

Serial No.

matter finally. If every feature of the arrangement is satisfactory and if we can also feel sure that we can realise all the advantages offered by the scheme, we may avail ourselves of it. If there is any disadvantage or draw-back, we may give up the proposal at any stage. I would propose that, if possible, pending reply to the application now proposed to be made, payments for sluice gates and pumps, etc., for the Mysore Water Supply Works may be held in abeyance in order that these demands may also be met from the loan to be raised in London, in the event of the arrangement suggested in this note being adopted finally.

D.F.A

9. I put up a draft to the Residency for consideration. The particulars given in it are required by the Act and the Memorandum

Submitted to His Highness.

The demand for power is increasing. The present generation capacity of Sivasamudram is about 32,000 H.P. and under contracts already entered into, about 4,000 H.P. have to be supplied to the Kolar Gold Mines and some of the Cotton Mills at Bangalore and Mysore. Applications for about 6,250 H.P. have been received and it has not been possible to deal with them without considering the question as to how the additional power could be generated For producing more power, the Mekedatu Project and an Installation at the Krishnarajasagara Dam are the two schemes that have so far been under consideration. Further investigation has, however, shown that there is yet another alternative which offers distinctly more advantages than either of the two schemes. I refer to another Installation to be called the V11 Installation, at Sivasamudram for generating 12,000 H.P. This Project is now under active consideration and I expect to be able to submit shortly to His Highness definite proposals in regard to this scheme. Whatever the scheme undertaken, the question of the finance necessary for carrying it out has first to be solved.

The Government of Great Britain passed in May last, an Amendment to the Trade Facilities Act providing for the payment by that Government of three-fourths of the interest payable on Loans raised in London and utilised for the purchase of materials manufactured in the United Kingdom. It is now proposed to make enquiries with a view to ascertain whether our demands for expansion of our Electrical Works can be brought under the Trade Facilities Act. The Act appears to be applicable to our case and it offers the substantial advantage of raising money at only one-fourth of what it would otherwise cost us, the balance of three-fourths being paid by the Government of Great

Great Britain. The proposed enquiry involves no commitment whether for raising a loan or for making purchases in the United Kingdom. All that is now proposed is to find out what conditions we shall have to comply with, if we want to avail ourselves of the advantages offered by the Trade Facilities Act. If borrowing in London is feasible, if the prices demanded by the Manufacturers in the United Kingdom are reasonable and if the Government of Great Britain does not impose any inconvenient conditions for allowing us the concession of payment of three-fourths interest, we may avail ourselves of the benefits offered by the Trade Facilities Act. It is accordingly proposed to start enquiries as in the draft put up and I request His Highness's gracious permission to issuing it.

Bangalore,
31st. December, 1924.

The first point to be considered is what are the purchases that are likely to be made in the United Kingdom. Information on this point has to be obtained from the Heads of the Capital Departments. A draft addressing them on this subject is put up for approval.

Sub-Section (3) of Section 2 of the Trade Facilities Act of 1924 provides that "no undertaking shall be given by the Treasury under this Section after the expiration of three years from the commencement of this Act or in respect of a loan raised thereafter." The guarantee to pay up-to three-fourths of the interest from the revenues of the United Kingdom can be given only up to 14th May 1927 and it can also apply only to loans actually borrowed on or before that date. Accordingly, if we can get any benefit from this arrangement at all, it will only be in respect of purchases made and payments actually made for them up to 14th May 1927. We need, therefore, only consider purchases and payments in our two official years 1925-26 and 1926-27. The Heads

NOTE—Contn. Sheet

of

Serial No.

of the Capital Departments have accordingly been requested to furnish information in regard to purchases and payments in the next two years.

The second point for settlement is the arrangement for borrowing to be made in London. As stated in our letter dated 8th January 1925 to the Residency, our intention is to obtain the necessary accommodation from our own Bankers there. I do not anticipate any difficulty in arranging for borrowing in this manner. Messrs Coutts & Co will, I think, be glad to accommodate us and more so, when the Government of the United Kingdom guarantees the loan and also agrees to pay three-fourths of the interest on it.

The third point for consideration is the means for repayment of any loan which we may borrow for this purpose from Messrs Coutts & Co. This is a question of our capital finance and may be separately dealt with after the extent and objects of borrowing are ascertained.

The only immediate action which can now be taken is to gather necessary information from the Heads of the Capital Departments and put it into shape for making a formal application to the Committee in London through our Consulting Engineers there.

I have not proposed to address the Government Director of the Iron Works as it is undesirable to permit any more capital outlay on this

this Concern. The Director of Industries and Commerce has also not been proposed to be addressed as his capital requirements are minor and need not be brought under this arrangement.

Copy of letter No.3205/67-1891 dated 16th April 1925, from Major K.A.G.Evans Gordon, Secretary to the Resident in Mysore, to the Financial Secretary to the Government of His Highness the Maharaja of Mysore.

.....

Subject.

Application of the [illegible] for a grant under section 2 of the Trade Facilities Act, 1924.

With reference to your letter No.Pol.561/G.F.17-24-3 dated the 8th January 1925, on the above subject, I am directed to say that on the facts as stated the Government of India are of opinion that such an application would come within the scope of the Act and could be submitted to the Committee set up by the Treasury for the purpose. It seems unlikely that the Treasury and the Advisory Committee would raise any difficulty in regard to a loan arranged with the State's Bankers. The Mysore Government have accordingly to prepare a statement of the case in duplicate giving full information on the lines stated in paragraph IV of the Advisory Committee's Memorandum published with the Commerce Department's Resolution No.30-(2)-C, dated the 23rd September 1924. They have also to furnish detailed evidence to show clearly that the expenditure to be incurred is in anticipation of expenditure which normally would have been incurred at a later date. The application should be addressed to the Secretary of the Committee at the Trade Facilities Act Offices, 3 Bank Buildings, Princes Street, London E.C.4 and be sent to the Committe through the Mysore Government's Consulting Engineer in Lon[illegible] or whoever represents them there. A copy should at the same time be forwarded to the Government of India through the Residency..

Submitted to His Highness.

In my out ietter dated 2nd December 192[illegible], I requested that we might try to get, if possible, the advantages offered by the Trade Facilities Act of the United Kingdom in connection with the provision of funds required for our Capital Works and with the permission of His Highness, the Resident was addressed on this subject. The reply to our letter has been received in Residency letter No.325 dated 1st April 1925. The Government of India consider that our application falls within the scope of the Act and it could, therefore, be made to the Advisory Committee set up by the Treasury for the purpose. It is also stated that our proposal to borrow from our own Bankers in London is also likely to be accepted by the Treasury and the Advisory Committee. I am making enquiries of the Heads of the Capital Departments in regard to the purchases to be made in the United Kingdom in 1925-26 and 1926-27 and on receipt of particulars from them, I shall submit definite proposals for the Orders of His Highness. For purchases which, in any case, have to be made in the United Kingdom and for those which can be made thereon a consideration of the relative prices in that and other Countries, the provision of finance according to the Trade Facilities Act is/ but the best arrangement.

Reference.- His Highness' order dated 7th May 1925 directing the submission of the file relating to the proposal for availaing ourselves of the advantages offered by the Trade Facilities Act, 1924.

Replies from the Chief Electrical Engineer, the Chief Engineer, and the Special Officer, K.R.S. Works, and the Agent, Mysore Railways, have been received. The Agent refers only to purchases for

NOTE—Contn. Sheet

Serial No.

for works which are still unsanctioned. The Chief Electrical Engineer states that most of the foreign purchases to be made in the next two or three years will, in all probability, be made in America. The Special Officer, K.R.S. Works, states that there are no important purchases to be made in the next one or two years. The chief items included in the Chief Engineer's statement are the purchases to be made for the Bangalore and Mysore City Water Works and he states that these may be made in the United Kingdom.

In the circumstances stated above, we have now no definite purchases to be made in the United Kingdom and it is not, therefore, possible to take any further action in respect of the proposal to avail ourselves of the advantages offered by the Trade Facilities Act. The proposal may, therefore, be kept in suspense. In the event of appreciable purchases having to be made in the United Kingdom, it may then be considered whether it would not be advisable to borrow for ~~such purposes~~ them in London and get the benefit of the three-fourths interest which the Home Treasury has agreed to bear in respect of orders placed in the United Kingdom and paid for from loans raised there.

A D.S.N. is put up.

30.5.25

DEWAN.)

30 MAY 1925
No. 9056

Submitted to His Highness.

As directed in His Highness' Order dated 2nd May 1925, I submit for perusal the file relating to the proposal to avail ourselves of the advantages offered by the Trade Facilities Act. As reported in my Submission Note dated 22nd April 1925, the Government of India consider that there is likely to be no difficulty in our applications under the Act being entertained by the Government of Great Britain.

From enquiries made of the Heads of the Departments for which large foreign purchases will be required, it is ascertained that there are, at present, no orders to be placed in the United Kingdom. Accordingly, no further action can now be taken for availing ourselves of the benefits of the Trade Facilities Act. In the event, however, of any orders for purchases being placed in the United Kingdom either on the ground of prices there being more favourable or for reasons like those urged by the Agent, Mysore Railways, in his letter dated 28th May 1925, the question may be considered as to whether it is not advisable to finance such purchases out of a loan to be borrowed from Messrs. Coutts and Co., on which we need only pay one-fourth of the interest, the balance of three-fourths being paid by the Government of Great Britain. In the meantime, the Residency letter dated 16th April 1925 may be acknowledged with thanks with the intimation that we shall forward a formal application under the Trade Facilities Act when it is proposed to make purchases according to it.

Bangalore,
1st June 1925.

No.30 (2) -C.
GOVERNMENT OF INDIA.
DEPARTMENT OF COMMERCE.

Simla, the 23rd September 1924.

RESOLUTION.

The following paper is published for general information:-

3, Bank Buildings,
Princes Street, E.C.4.

Memorandum for the guidance of applicants for grants under section 2 of the Trade Facilities Act, 1924.

---

1. In accordance with section 2 of the Trade Facilities Act, 1924, arising out of the discussions at the Imperial Conference, the Treasury are authorised, subject to certain terms and conditions, to make a contribution of an amount not exceeding three-quarters of the interest payable in the first five years of the currency of a loan raised in the United Kingdom by or on behalf of any Public Utility undertaking i any part of His Majesty's Dominions. All payments under this section will be made to the Government of that part of His Majesty's Dominions In no case will, the Treasury contribution be paid direct to any company or Municipality.

II. The Capital sum on which the contribution is based will be limit to the cost of the materials to be purchased and manufactured in the United Kingdom.

III. The Treasury have set up a Committee to advise them of the cases in which they can properly make contributions. The Committee consist of representatives of the Treasury, the Board of Trade, the Colonial Office, and the India Office.

IV. The Committee think it useful to indicate broadly the information which will be required at the outset:-

A. Details of the scheme with information as to the total cost and the part of the total cost in respect of which assistar is required, and information as to the economic justification or desirability of the project.

B. Evidence to show that the whole scheme can be financed, particulars of the orders to be placed in the United Kingdo and evidence that the prices to be paid for the same are fa and reasonable.

C. Evidence that the scheme is approved by the Government conc r and that the expenditure involved in the scheme is in anticipation of expenditure which would normally have be

incurred at a later date.

V. In order that the Government concerned may be fully informed and their approval to the scheme obtained without unnecessary delay, a - duplicate copy of the application should be sent to the Government at the same time as application is made to the Committee.

VI. In the event of the Committee in their discretion requiring legal or technical advice in the consideration of any application the cost of obtaining such advice will have to be met by the applicant.

VII. In accordance with the Trade Facilities Act, 1924, the Committee wish to point out that this scheme is available only in respect of Public Utility undertakings which are defined as undertakings for - providing and or improving communications, drainage or irrigation, or for providing power, lighting or water. The Committee also wish to point out that the Act requires that the Treasury contribution shall be confined to loans raised in the United Kingdom. Particulars of the total amount and terms of the proposed loan, showing how such is to be obtained, will be required by the Committee.

VIII. The attention of applicants is also drawn to the following over-riding conditions:-

1. The total sum payable by the Treasury must not exceed £.1,000,000 in any one year.
2. The total sum payable by the Treasury must not exceed £.5,000,000 in all.
3. No undertaking by the Treasury to give assistance can be given after three years from the commencement of the Trade Facilities Act, 1924, i.e., after 14th May, 1927, or in respect of a loan to be raised thereafter.

IX. All applications should be addressed to the Secretary of the - Committee at the Trade Facilities Act Offices, 3 Bank Buildings, - Princes Street, London, E.C., 4 Telephone Number City 3151, Telegrap address Faciltrade Stock London. Cable address Faciltrade London.

REGISTRAR, RESIDENT'S OFFICE.

G.2.17.24.3

Fair Draft.

Pol. 561 D 8/1/25

To

The Secretary to the

Hon'ble the Resident in Mysore,

BANGALORE.

Sir,

I am directed to acknowledge the receipt of your letter No.8235/67-1891 dated the 18th October 1924 forwarding a copy of the Resolution of the Government of India dated 23rd September 1924 regarding applications for grants under Section 2 of the Trade Facilities Act, 1924. The Government of Mysore propose to avail themselves of the scheme sanctioned in Section 2 of the Act and their requirements are likely to be, during the next ~~five~~ three years about Rs.20 lakhs a year, under the following Works.

~~The Krishnarajasagara Reservoir.~~

Switch gear and miscellaneous plant for the improvement of the Cauvery Power Scheme.

~~Pumps etc., for the Mysore City Water Supply Works~~.

Extension of Cauvery Power Scheme Works at Sivasamudram and a new installation at the Krishnarajasagara Dam.

~~All~~ the above ~~items~~ are ~~for~~ Capital ~~expenditure~~ Works and ~~the amounts noted against them are~~ Rs 20 lakhs a year is the estimated cost of the materials proposed to be purchased in the United Kingdom.

The economic justification or desirability of the projects is clear from the ~~description~~

Nature of Works Noted
~~description~~ of the ~~items given~~ above.
The balance of cost of the schemes of
which the purchases ~~items~~ form part will be found
from the other resources of Government.
It is, necessary however to enquire
whether the whole project ~~has~~ has to be
submitted for the approval of the Govern-
ment of India in each case.

The purchase of the materials in the United Kingdon will be based upon tenders invited and on the advice of the consulting engineers Messrs Rendel, Palmer and Tritton. The outlay involved by the schemes is in anticipation of the expenditure which would normally have been incurred at a later date.

The Mysore Government do not require a loan of longer currency than five years and in view of this consideration and also of the fact that the amount required is not large enough for the floatation of a public loan, they propose to raise the money in the form of a bank loan, if possible, from their own Bankers, Messrs Coutts & Co.

~~xxxxxx~~ His Highness' Government will be much obliged if the Hon'ble the Resident will kindly ascertain if the application of the Government of Mysore will be entertained under the circumstances explained above, and of the concession of three-quarters of the interest payable on the loan in the first five years ~~of its currency~~ as

as provided for in Clause (c) of Section 2 of the Act will be extended to it.

The favour of very early action is requested.

I have the honour to be,

S i r,

Your most obedient servant,

29-12-21

Financial Secretary to Govt.

DIARY NO. 3880

FROM

Major K. A. C. Evans Gordon,

SECRETARY TO THE RESIDENT IN MYSORE.

GENL. & REV. SECTT. 17 APR. 1925 G. D. SECTION.

To

The Financial Secretary to the Government of

His Highness the Maharaja of Mysore.

Dated Bangalore, 16th April *1925.*

Subject.

Application of the Mysore Government for a grant under section 2 of the Trade Facilities Act, 1924.

SIR,

With reference to your letter No.Pol.561/G.F.17-24-3, dated the 8th January 1925, on the above subject, I am directed to say that on the facts as stated the Government of India are of opinion that such an application would come within the scope of the Act and could be submitted to the Committee set up by the Treasury for the purpose. It seems unlikely that the Treasury and the Advisory Committee would raise any difficulty in regard to a loan arranged with the State's Bankers. The Mysore Government have accordingly to prepare a statement of the case in duplicate giving full information on the lines stated in paragraph IV of the Advisory Committee's Memorandum published with the Commerce Department's Resolution No.30-(2)-C, dated the 23rd September 1924. They have also to furnish detailed evidence to show clearly that the expenditure to be incurred is in anticipation of expenditure which normally would have been incurred at a later date. The application should be addressed to the Secretary of the Committee at the Trade Facilities Act Offices, 3 Bank Buildings,

Buildings, Princes Street, London E.C.4 and be sent to the Committee through the Mysore Government's Consulting Engineer in London or whoever represents them there. A copy should at the same time be forwarded to the Government of India through the Residency.

I have the honour to be,

Sir,

Your most obedient servant,

Thomas-Gordon.

File No. 17-24

Dear Mr. Krishna Rao,

In reply to your No.Fl.5876-7/G.F.17-24-6 dated the 28th April 1925, I give below the information required.

The only work under contemplation in the Electrical Department involving foreign purchases is the VII Installation proposal, of which Government have sanctioned the following items to be taken up immediately.

		Rs.
(i)	VII Installation at Sivasamudram. ..	22,17,983
(ii)	Extensions at Khankanhally ..	3,15,777
(iii)	Transmission Line Sivasamudram-Kolar. ..	9,51,638
(iv)	Extensions at Kolar ..	4,29,516
(v)	Extensions at Bangalore ..	6,27,188
(vii)	Reconstruction of the Mysore Receiving & Distribution System ..	11,13,135
	Total. ..	56,55,237

Note:-Items No.vi, viii-a & viii-b are held in abeyance for the time being.

The foreign purchases for the items sanctioned will amount to Rs.33,67,450, all of which can be obtained in the United Kingdom. However preliminary tenders would indicate that there would be a saving of about 15% if the purchases are made in the United States and Canada as compared with British prices. To this saving must be added the concession which the International General Electric Co. are offering,

in the nature of deferred payments. The General Electric Company have given us certain preliminary tenders, the prices of which are to be considered as firm and will allow us to pay 1/5th against shipping documents and charge 2% interest on the deferred payments, the balance to be paid in 4 equal early payments.

Without any doubt a large percentage of these orders will go to American Manufacturers if tenders are invited and orders placed on the basis of the lowest quotation.

A brief description of the foreign materials to be purchased for the VII Installation would be as follows:

2 - 6000 K.W. Generators, 2 - 9000 H.P. turbines, penstocks and valves 9 - 3330 KVA. 75,000-Volt transformers, High Tension & Low Tension Switchgear, cables, cranes, aluminium conductors for the power transmission lines, High Tension insulators, lightning arresters, a 5000 K.W. synchronous condenser, 3 - 1750 K.W. 75,000-Volt transformers, frequency changer sets for Bangalore and Mysore and other miscellaneous electrical plant.

I have worked out a schedule for these foreign purchases and find that by spreading the whole work ~~for~~ after about 3½ years to complete, that purchases will have to be made as follows:-

	Rs.
1925-26	14,07,250
1926-27	15,28,200
1927-28	4,32,000

I hope the above information is what you require.

Yours sincerely,

S G Forbes

To

The Financial Secretary to the Government of Mysore,

Bangalore.

Sir,

Re. Purchase of materials in Great Britain out of loans raised there.

I have the honour to acknowledge the receipt of your letter No.Fl.6405 dated 26th May 25 regarding the above and to state that the information required for Railways worked by the State will be furnished to you tomorrow. I regret the delay and it is due to the -- absence of Loco Superintendent on leave from whom very important details had to be obtained. He returned only to-day.

The Agent, M. & S.M. Railway Co., has not furnished the information in regard to the lines worked by the -- Company and he has been reminded.

I have the honour to be,

Sir,

Your most obedient servant,

Dove Wilson

Agent.

M.R.

The Financial Secretary to the Government of Mysore,

Bangalore.

Sir,

In reply to your letter No.Fl.5878-9/G.F.17-24-7 dated 28th April 1925 I have the honour to forward a -- statement in the prescribed form giving full particulars of materials required during 1925-26 and 1926-27. None of the items is sanctioned yet but as they are all urgently required for the movement of traffic I consider that they are likely to be sanctioned soon.

Doubtless most of the articles could be purchased in Germany or other countries outside the United Kingdom at cheaper rates at present owing to favourable exchange and other existing economic conditions, but it is probable that better articles can be obtained in the United Kingdom and there is a great advantage in the case of locomotives and rolling stock in being able to obtain them to standard designs and specifications that tend to reduce the cost of maintenance and spare parts. Our standard train lighting equipment is made in England and to introduce fittings made by other Makers on the Continent or in America would lead to confusion in working and cause practical difficulties that would outweigh any possible saving in first cost.

The Madras and Southern Mahratta Railway have been

P.T.O.

been asked to expedite submission of the information required from them.

I have the honour to be,

Sir,

Your most obedient servant,

Agent.

M.R.

been asked to expedite submission of the information required from them.

I have the honour to be,

Sir,

Your most obedient servant,

Agent.

DRAFT.

To

The Secretary to the Hon'ble
the Resident in Mysore,
BANGALORE.

No. Pol. 11
dt. 7/7/1925

S i r,

I am directed to acknowledge with thanks the receipt of your letter No. 3205-67/1891 dated 16th April 1925 stating that, on the facts stated in my letter No. Pol.561 dated 8th January 1925, the Government of India are of opinion that applications of the Mysore Government would come within the scope of the Trade Facilities Act, and that the Treasury and the Advisory Committee are unlikely to raise any difficulty in regard to a loan to be arranged with the State's Bankers in London. There is no immediate need for making an application to the Committee and when the necessity arises, the procedure indicated in your letter will be followed and a copy of the application addressed to the Committee sent to you for submission to the Government of India.

I have, etc.,

8/6/25
Financial Secretary to Govt.

6.7.25
